

Pravina Ladva

Chief Technology & Operations Officer

Pravina Ladva was appointed as Chief Technology & Operations Officer with effect from 1 May 2017. In addition to her role as Life Capital Chief Technology & Operations Officer Pravina Ladva has been appointed Group Digital Transformation Officer as of 1 July 2020.

Prior to joining Swiss Re, Pravina Ladva established a successful career in the financial technology sector, taking on complex roles with responsibility for strategy, delivery and results. She has managed direct and virtual teams of up to 400 staff, as well as multimillion pound budgets for international organizations.

From 2008 until 2017, she worked in a variety of roles at Barclaycard, including COO Digital Marketplace and CIO Barclaycard Business Solutions. During this time, she led B2B and B2B2C technology and change teams, driving the agile and Dev Ops transformation across Barclaycard.

Also at Barclaycard, she won the best implementation of Agile in the private sector in 2015. She led a program that successfully eliminated regulatory issues and drove improvements across IT systems, processes and controls and auditing.

Ms. Ladva began her career at Abbey / Santander in 1992, where she enjoyed a progressive, fast-track career and resolved critical operational issues until 2008. She centralized all budgeting, tracking and reporting, and implemented group-wide project methodologies and governance.
