# Strong P&C Re result driven by disciplined underwriting and low large nat cat burden

Insurance revenue (USD bn)    New business CSM (USD m)

- Insurance revenue declined mainly due to pruning actions taken in casualty, a higher share of business with NDIC features and reduced volumes, including lower-margin business
- New business CSM generation slightly below prior-year period driven by portfolio actions taken in casualty and net price change at YTD renewals

Insurance service result (USD m)

- Decrease in CSM release driven by earn-through of prudent initial loss picks, including impact of new business uncertainty allowance, and slightly lower margins
- 'Experience variance & other' in 9M 2025 reflects
  - lower-than-expected large nat cat<sup>2</sup> claims and favourable net prior-year reserve development, partially offset by
  - reserves for current-year attritional losses and slightly higher-than-expected large man-made<sup>3</sup> losses
- Discounting benefit on incurred claims of ~9.5%pts in 9M 2025
- On track to achieve full-year 2025 combined ratio target of <85%

- Risk-adjusted rates decreased by ~-5% in 9M 2025

Insurance service result (USD m)

- Increase in insurance service result driven by higher CSM release reflecting stronger in-force margins, and by more favourable experience variance
- 'Experience variance & other' in 9M 2025 reflects
  - favourable large nat cat claims experience<sup>2</sup> and net prior-year reserve development, partially offset by
  - an allowance for potential late claims reporting and elevated large man-made loss experience<sup>3</sup>
- Discounting benefit on incurred claims of ~4%pts in 9M 2025
- On track to achieve full-year 2025 combined ratio target of <91%

<sup>3</sup> Large man-made losses of USD 282m (i.e. USD >10m, nominal) related to 9M 2025 events, above nine-month expectation

# L&H Reinsurance result impacted by assumption updates

Insurance revenue (USD bn)    New business CSM (USD m)

- Decline in insurance revenue mainly driven by the termination of an external retrocession transaction<sup>1</sup> which positively affected the prior-year period
- New business CSM generation in 9M 2025 mainly consists of mortality, primarily in the US, followed by health and longevity in EMEA. The decline compared to the prior-year period reflects rigorous portfolio management and a disciplined approach to new business

Insurance service result (USD m)

- 'Experience variance & other' in 9M 2025 reflects
  - USD -0.4bn assumption updates for selected underperforming portfolios in the EMEA and ANZ regions, of which USD -0.25bn in Q3 2025
  - USD -0.25bn adverse claims and volume developments primarily in APAC, while largest portfolios, including US mortality, performed in line with expectations
- Given net income of USD 1.1 bn in 9M 2025, L&H Re is not expected to meet its net income target of USD ~1.6bn for FY 2025

Net income (USD m)

# L&H Reinsurance maintains a robust CSM balance

CSM development (USD m)

- 'Change in assumptions' reflects selected assumption updates primarily in the EMEA and APAC regions

- Increase in ROI driven by recurring income and investment gains following the sale of stake in Definity Financial in Q1 2025
- Other NII decreased due to lower income from cash and equity-method investments
- Recurring income in 9M 2025 benefitted from higher locked-in yields
- Reinvestment yield of 4.3% in Q3 2025
- ‘Change in expected credit losses and impairments’ of USD -25m in 9M 2025

# Cautionary note on forward-looking statements and disclaimer

Certain statements and illustrations contained herein are forward-looking. These statements (including as to plans, objectives, targets, and trends) and illustrations provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to a historical fact or current fact.

Forward-looking statements typically are identified by words or phrases such as “anticipate”, “target”, “aim”, “assume”, “believe”, “continue”, “estimate”, “expect”, “foresee”, “intend” and similar expressions, or by future or conditional verbs such as “will”, “may”, “should”, “would” and “could”. These forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause Swiss Re’s (the “Group”) actual results of operations, financial condition, solvency ratios, capital or liquidity positions or prospects to be materially different from any future results of operations, financial condition, solvency ratios, capital or liquidity positions or prospects expressed or implied by such statements or cause the Group to not achieve its published targets. Such factors include, among others:

- macro-economic events or developments including inflation rates, increased volatility of, and/or disruption in, global capital, credit, foreign exchange and other markets and their impact on the respective prices, interest and exchange rates and other benchmarks of such markets;
- elevated geopolitical risks or tensions which may consist of conflicts arising in and between, or otherwise impacting, countries that are operationally and/or financially material to the Group or significant elections that may result in domestic and/or regional political tensions as well as contributing to or causing macro-economic events or developments as described above;
- the frequency, severity and development of, and losses associated with, insured claim events, particularly natural catastrophes, human-made disasters, pandemics, social inflation litigation, acts of terrorism or acts of war, including the ongoing wars and conflicts in the Middle East, and any associated governmental and other measures such as sanctions, expropriations and seizures of assets as well as the economic consequences of the foregoing;
- the Group’s adherence to standards related to environmental, social and governance (“ESG”), sustainability and corporate social responsibility (“CSR”) matters, ability to fully achieve goals, targets, ambitions or stakeholder expectations related to such matters and ability to adapt to the evolving expectations of investors, shareholders, business partners, or third parties, including regulators and public authorities, as well as CSR, ESG and/or sustainability recommendations, standards, norms, metrics or regulatory requirements;
- the Group’s ability to achieve its strategic objectives;
- legal actions or regulatory investigations or actions, including in respect of industry requirements or business conduct rules of general applicability, the intensity and frequency of which may also increase as a result of social inflation;
- the Group’s ability to attract, retain and train highly skilled and technically qualified employees at the senior management level as well as in key operational roles;
- the effects of business disruption due to terrorist attacks, cyberattacks, natural catastrophes, public health emergencies, hostilities or other events;
- central bank intervention in the financial markets, trade wars or other tariffs and protectionist measures relating to international trade arrangements, adverse geopolitical events, domestic political upheavals or other developments that adversely impact global economic conditions;
- mortality, morbidity and longevity experience;
- the cyclicity of the reinsurance sector;
- the Group’s ability to maintain sufficient liquidity and access to capital markets, including sufficient liquidity to cover potential recapture of reinsurance agreements, early calls of debt or debt-like arrangements and collateral calls due to actual or perceived deterioration of the Group’s financial strength or otherwise;
- the Group’s ability to realise amounts on sales of securities on the Group’s balance sheet equivalent to their values recorded for accounting purposes;
- the Group’s ability to generate sufficient investment income from its investment portfolio, including as a result of fluctuations in the equity and fixed income markets, the composition of the investment portfolio or otherwise;
- changes in legislation and regulation or the interpretations thereof by regulators and courts, affecting the Group or its ceding companies, including as a result of comprehensive reform or shifts away from multilateral approaches to regulation of global operations;
- matters negatively affecting the reputation of the Group, its board of directors or its management;
- the lowering, loss, giving up of, or the decision not to participate in one of the financial strength or other ratings of one or more companies in the Group, and developments adversely affecting its ability to achieve improved ratings;
- uncertainties in estimating reserves, including differences between actual claims experience and underwriting and reserving assumptions, including in Life & Health and in Property & Casualty Reinsurance due to higher costs caused by pandemic-related or inflation and supply chain issues;
- changes in our policy renewal and lapse rates and their impact on the Group’s business;
- the outcome of tax audits, the ability to realise tax loss carryforwards and the ability to realise deferred tax assets (including by reason of the mix of earnings in a jurisdiction or deemed change of control), which could negatively impact future earnings, and the overall impact of changes in tax regimes on the Group’s business model;
- changes in accounting estimates or assumptions that affect reported amounts of assets, liabilities, revenues or expenses, including contingent assets and liabilities as well as changes in accounting standards, practices or policies, including the Group’s recent adoption of IFRS;
- strengthening or weakening of foreign currencies;
- reforms of, or other potential changes to, benchmark reference rates;
- failure of the Group’s hedging arrangements to be effective;
- significant investments, acquisitions or dispositions, and any delays, unforeseen liabilities or other costs, lower-than-expected benefits, impairments, ratings action or other issues experienced in connection with any such transactions;

- changing levels of competition in the markets and geographies in which the Group competes;
- limitations on the ability of the Group’s subsidiaries to pay dividends or make other distributions; and
- operational factors, including the efficacy of risk management or the recent adoption of IFRS as well as other internal procedures in anticipating and managing the foregoing risks.

These factors are not exhaustive. The Group operates in a constantly changing environment and new risks may emerge accordingly. You are cautioned not to place undue reliance on forward-looking statements. The Group undertakes no obligation to publicly revise or update any forward-looking statements, whether as a result of new information, future events or otherwise.
