

Asset Management

Financial Markets Program (FMP)

Launch your investment
career with purpose

FMP is an exclusive rotational program for ambitious, analytical and curious minds. Work with global investment teams across Swiss Re's Asset Management platform, from public markets to private assets, and gain exposure across the full investment value chain.

What You'll Do

From day one, you will take ownership and contribute to real investment decisions.

- Rotate across core investment areas such as Asset Allocation, Private Equity, Private Debt, Public Credit, Insurance-Linked Securities, Corporate Development
- Work side-by-side with investment professionals across in-house and external manager portfolios
- Conduct financial market research and analysis
- Support portfolio decisions across asset classes
- Help shape strategic asset allocation

What You'll Get

- A springboard for your career in investment management
- A structured development plan with formal training and CFA support
- Continuous feedback, mentoring and senior exposure
- Cross-team visibility across a global platform
- Early responsibility and recognition as a key talent at Swiss Re

What We're Looking For

- Strong analytical and problem-solving skills
- Passion for financial markets and long-term investing
- Curiosity, adaptability, and a growth mindset
- Motivation to learn fast and contribute from day one

What Alumni Say

"The FMP gave me a 360° view of the investment world."

"It's a rare opportunity to work, learn, and lead all at once."
