

Swiss Re America launches Strategic Financial Solutions Group

15 Jan 1999 CET Press Release

Swiss Reinsurance America has launched a new Strategic Financial Solutions group to help primary insurance carriers take full advantage of their financial resources and use their capital more efficiently.

This new Swiss Re America unit will work with clients to develop strategic, financial restructuring plans to achieve such objectives as a merger, acquisition or management buy-out.

Strategic Financial Solutions has developed an innovative methodology, which allows it to take a detailed look at the capital structure of each property/casualty company in the US. John Swigart, a Director in the new group, noted that "Swiss Re America is now able to offer unique approaches that maximise gains from capital restructuring."

Mr. Slattery, President of Swiss Re America, commented that "with this new methodology, we can help our clients identify and pursue growth and enhancement opportunities that they may not have otherwise captured."

Swiss Re America holds ratings of "AAA" (superior) from Standard & Poor's "Aaa" (exceptional) from Moody's Investment Services and "A+" from A.M. Best Company. Swiss Re America has branch offices in Atlanta, Boston, Chicago, Dallas, New York, Philadelphia, Phoenix and San Francisco.
