

# Swiss Re Quick Flood Cover

Power your entrance into a new risk pool

Close to 95% of American households lack adequate flood coverage.

There's a need and now you have an answer.

## Your Needs

**Interested in a new risk pool** but require the resources or capacity to model, underwrite and price a new product.

**Not set up to navigate state regulatory filings,** costs and approval uncertainty.

**Looking to provide a better customer experience** by offering additional protection for your policyholders.

## Powered by Swiss Re Quick Flood Cover

**Complete with Swiss Re's proprietary fully probabilistic flood model** (storm surge and inland flood across the US).

**Intuitive API or web-based solution.**

**Equipped with Milliman Appleseed's** pre-approved loss costs, policy wording, and supporting regulatory documentation (providing a higher certainty of state approval).

**Quick to implement** 4-6 week launch a product your customer base needs.

## Powering Your Next

**Entrance** into a new market quickly and confidently

**Growth opportunity** through a Solution backed by a market-leading reinsurer

**Product offering** that adds value to your customers and their experience

**Designed** to give you more control and less resource effort
